

Program at a Glance

At Just For Kix, we are motivated to create great people AND great dancers. Dance training helps children grow and learn in so many ways far beyond the dance floor. Our program teaches exceptional dance technique in a warm, welcoming, team-oriented environment where every dancer is valued and matters.

Just For Kix provides exceptional, affordable dance classes from professionals in a warm, team-oriented environment. Just For Kix started in Brainerd in 1981 and has grown to over 150 dance programs across the country. It's a program with an established dance curriculum that has been updated, changed, and tweaked for over 40 years. The program in White Bear Lake was started in 1996. All Just For Kix dance programs utilize and share and use methods, information, tips, and ideas from each other to help all programs grow stronger and better. At Just For Kix, we believe in building confidence in children through performance by offering multiple performance opportunities. The dance classes at Just For Kix - White Bear Lake are separated by age so dancers can dance with their friends! We teach to the lowest and highest levels in each class.
