

Spring Hill & Brooksville
Just for Kix
Shoe Guide

Dear Parents,

Please make sure to order all required items listed on the website for your child's specific class. **All costume pieces MUST be ordered by September 24th** in order for your child to have them in time for their Christmas performances.

I am listing the shoes for each specific class needed, as there have been many questions on what size to order. The specific name and style is listed for you on the website, with your child's class details

Please let me know if you have any further questions. :)

Brooksville:

- Tap Shoe: Order ½ a size larger than street shoe size

General Notes:

Shoes: Please make sure to research your child's general street shoe size in order to get the right sizing. If you are unsure, please reach out to Ms. Karin or Ms. Heather! DO NOT GUESS. If your child has been having large growth spurts, please order a full size up as opposed to ½ a size up suggestion.

Tights: When ordering tights, keep in mind that these tights are for PERFORMANCE ONLY. I encourage parents to order 2 pairs. More times than not, there is a runner issue. It is always good to have a backup pair, especially if these will be worn the entire dance season. Below is a, general sizing, sample chart for you to figure the best size. YOur child may wear any (solid color) of tights to class, but please make sure that your child wears tights to all classes.

Poms: If your child is in a Pom Combo class, please make sure to order the Poms listed in their required class items. It will make them even more excited to take such a unique class ,when they are able to have their very own Pom Poms! The sooner they get used to how the Poms feel in their hands, the better!

Tap Shoes: If your child is in a class that requires tap shoes, please order those as soon as you can. September we will be adding Tap to their lesson. I waited the first couple of weeks in order for everyone to get familiar with class. Until they get their shoes, they may wear tennis shoes. However, don't wait too long, they won't get as much out of the lesson without the actual taps shoes.

*If your child has shoes from prior dance lessons, feel free to have your dancer wear them to class to get their wear out of them. Use those as their practice shoes. However, please do not wait too long to get any of the required shoes, as they **MUST** have the same matching shoes for all performances. I am currently sending information out into the community for exciting dance appearances. I want your child to be able to participate and with that, they must have the required uniform items.*

Much Love, Ms. Karin
