Monthly/Upcoming News:

During this month your dancer will learn about a dancer named Nina. She is going to help us teach your dancer how to Plie and do Releve. We are also going to teach them the second position of ballet! We will also work with them on stretching out their muscles. In class each dancer has a TuTu Tots Mat that represents their spot for the routine we are working on.

We have our first performance on October 14th at Morningside Heights at 5 PM. Please arrive with your dancer in their Halloween costume (just no masks, we want them to be able to see their face) or a designated outfit (Tiny Kix - green shirt & black pants, Wee Petite I - White shirt & pants, Wee Petite II - Orange shirt and black pants, Wee Kix I - Anything Cheetah print, and Wee Kix II - black shirt and black pants) for their class by 4:45 PM. We will line up all the dancers in the chapel, then lead them into the cafeteria to perform, then lead them back into the chapel after performing. Once they have performed, they are free to leave with you.

Morning Side Heights is located next to the hospital you would walk in the doors under the big canopy that states "Morning Side Heights", take a left and get on the elevators to go down one floor, then take a left out of the elevator and follow the signs to the Chapel.

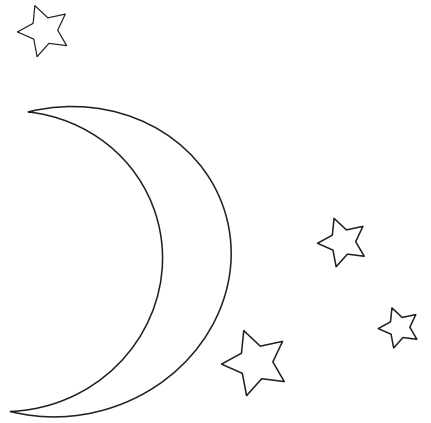

We will not have class on Monday October 31st. I hope everyone has a Safe & Happy Halloween!

If you have any questions, please let me know. You can reach me at marshall_mn@justforkix.com or after class.

Tip Of The Month: Always go to the bathroom BEFORE class.
 QUOTE: Our dance teacher says...
 You get what you get and you don't throw a fit.

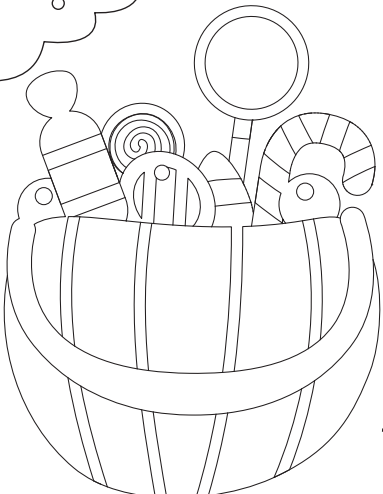

October

How do you teach a tissue to dance?
You give it a little boogie!

Knock knock!
Who's there? Boo! Boo-Who? ...
You don't have to cry about it!

Caution: Do not use markers that will bleed through.
